the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 1999). The prevalence of mental health problems has increased in the general population, and the incidence of mental health problems has increased in the prison population.

There is a growing awareness of the need to address the mental health needs of prisoners. The Department of Health (1999) has published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners. The Department of Health (1999) has also published a strategy for mental health services, which includes a commitment to improve the mental health of prisoners.

## SUPERINTENDENT OF SCHOOLS

MR. B.J. DAVIS

Mr. B.J. Davis was born on March 23, 1931. He attended Southwest Missouri State and recieved a B.S. in education in 1952. After teaching Social Studies and Driver's Education from 1955-1958, he recieved his masters in Education Administration. He then served as an Elementary Principal at Mexico, Missouri. In 1960 he became a principal at a Junior High School in Granite City. He was appointed Assistant to the Superintendent in 1965, and in 1966 he became Superintendent of School District #9.

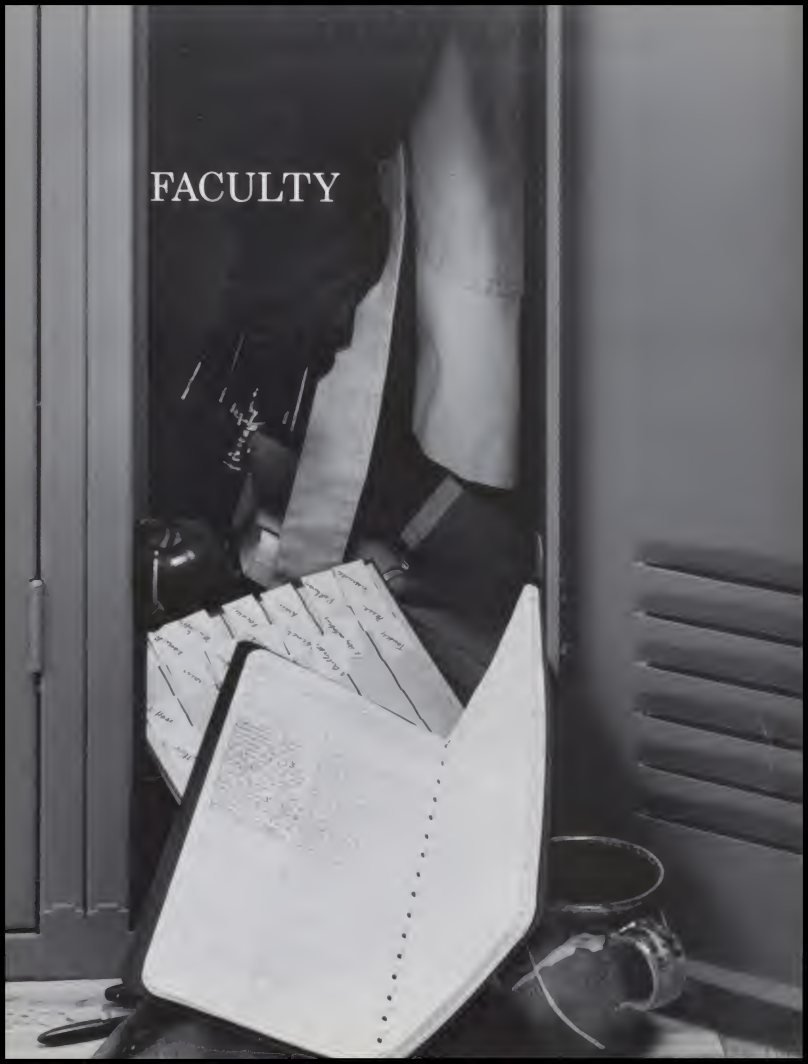

## ASSISTANT SUPERINTENDENT

FRANK KRAUS

Mr. Frank Kraus was born in Granite City. He graduated from Granite City High School in 1948. He served in the Air Force from 1951-1953, and then became a faculty member and coach at Lawrenceville, Illinois, followed by a period as a teacher, Assistant Principal, and Principal at Coolidge Junior High School here in Granite City. He recieved a B.S. degree in 1957 from Southern Illinois University, Carbondale, and his M.S., from Indiana State University. In 1967 he became the Assistant Superintendent for Community Unit District #9.

# FACULTY

## MR. GILBERT V. WALMSLEY

PRINCIPAL  
OF  
GRANITE CITY  
NORTH HIGH

### HAPPY BIRTHDAY TO NORTH AND HER STUDENTS:

As you are aware, this is our 10th Anniversary and our memories are many. As I reflect upon the 10 years that have passed, my mind is filled with happy memories of accomplishments by you and your fellow students. I am pleased that the student body filling our corridors today is of the same high caliber as your predecessors. Those who came first can be proud of what they helped you build and I am sure you take great pride in continuing old traditions while building new ones for those who will follow.

Congratulations to this student body — you are among the finest.

Mr. Walmsley

## ASSISTANT PRINCIPALS

Victor Buehler

B.S., M.S., Illinois State University. Mr. Buehler is primarily responsible for the orientation and registration of students. He supervises the collection of grade reports and is in charge of distribution of report cards. He is in charge of evaluation and supervision of counselors, the nurse, and special education classes. Mr. Buehler develops and supervises such programs as graduation, Senior Recognition Day, and senior meetings. He is also in charge of the administration of the summer school program.

---

David Painter

B.S., Eastern Illinois University, M.S., Southern Illinois University. Mr. Painter deals directly with students, handling attendance and disciplinary problems. He assists in making teacher observations and with student activities. He is also responsible for the buses and any other work assigned by Mr. Walmsley.

Mrs. Haddox at the helm.

## NORTH DEPARTMENT HEADS

## 1983-THREE MASTER TEACHERS RETIRE

Evelyn Laux, Librarian

Several veteran teachers are retiring from teaching this year, and they will be sorely missed by their colleagues and the student body at North. Indeed, their contribution has been unique, and they are irreplaceable. All we can do is to wish them well in their retirement.

Miss Laux has taught a total of 23 years: 13 at Prather, and 10 at North. She opened both school libraries, and has worked at the Missouri State Library, St. Louis Public Library, Social Services Library, and the University of Illinois Library. She attended the University of Missouri taking a degree in Journalism and did her library work at the University of Illinois. She says she will miss North very much, and Miss Laux, we at North will miss the librarian *par excellence* very much, also.

Robert B. Cowan

Mr. Cowan taught a total of 14 years, 10 at North and 4 at South. Before he became a teacher, he was in the Air Force for 25 years, reaching the rank of Major. He spent time in Europe, Africa, Japan, China, Korea, and was in England during World War II. He attended the University of Illinois, Southern Illinois University, and the University of Oklahoma. He holds a Master's degree in History, and has been Social Studies Department Head for the past ten years. He plans to spend his retirement playing golf and fishing.

Mr. Richard King

Mr. King has taught a total of 20 years, 19 in Granite City, and one year in Alton. Before he became a teacher, he was an actor with roles in such plays as "Romanoff and Juliet," with Peter Ustinoff, and "A Mighty Man is He." He was in "Robert Montgomery Presents," and "The Doctors" on TV. He attended Northwestern University, Hunter College, Pasadena Playhouse, and Southern Illinois University. He holds a Master of Theater Arts degree.

## GRADUATION

Remember back in first grade,  
We thought we were so old,  
The day that we had show and tell  
and brought in some "fools gold."

Lyrad and Divad Gnoi

Remember a few years later,  
We thought we were divine,  
We teased the "first grade babies,"  
At the ripe old age of nine.

Now it's eons later,  
As graduation day draws near,  
We think of bittersweet memories  
And remember yesteryear.

Remember the hellos and laughter,  
Talk over all our fears,  
Reflect on learning and sharing  
Before the goodbyes and tears.

'68-PRESIDENT JOHNSON ANNOUNCES HE WILL NOT SEEK REELECTION!

## CLASS OF '84

Looking back,  
at our junior year,  
the memories left,  
are very dear.

As we think about  
the times we had,  
some were good,  
some were bad.

But being a junior  
was a difficult deed.  
There were papers to write  
and books to read.

It changed our lives,  
we set our goals.  
Will we reach them?  
No one knows.

Now it's time  
to end this year.  
Should we cry,  
or should we cheer?

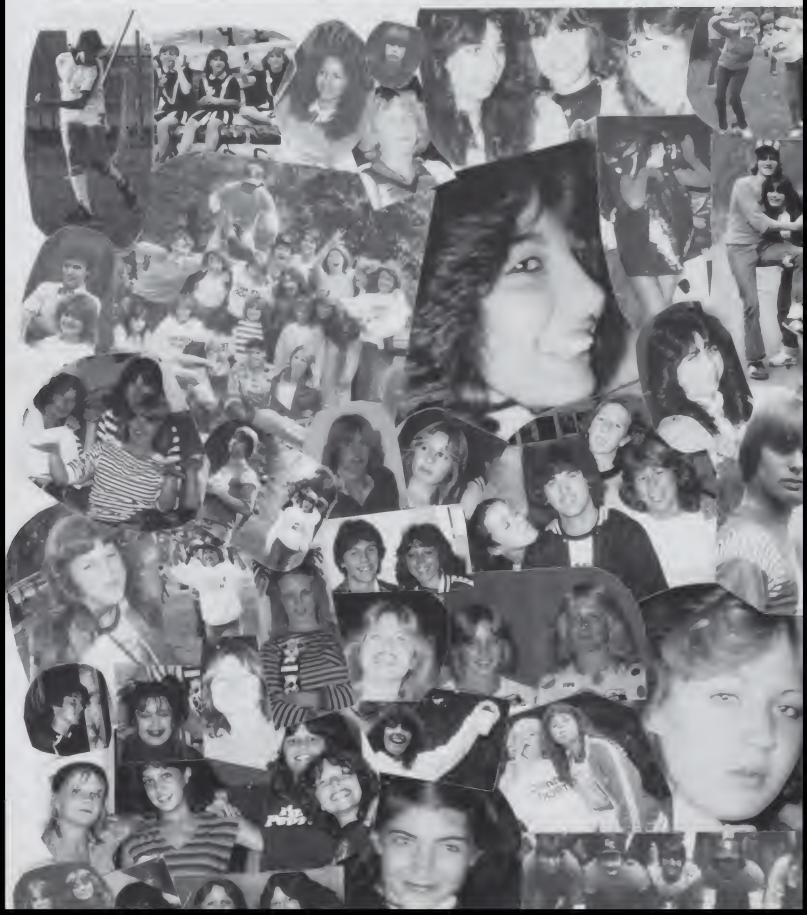

But don't worry,  
we'll be seniors next fall.  
We'll run the school,  
we'll have a ball!

So cheer up,  
there's still one more,  
for the Class of '84!

## J-V CROSS COUNTRY

Jim Robertson.

Jim Robertson emerged as one of the top cross country runners in Southern Illinois during the 1982 season. Highlights of his season included a third place finish at the regional, second place finishes at the North and Waterloo Invitionals, and Champion of the City, County, and Conference Meets.

According to Coach Robinson, Jim fits into the mold of other outstanding runners that have been produced at Granite City North.

"He is a product of his dedication and desire to excel."

## GIRLS' BASKETBALL

## STEVE TRITTSCHUH

To obtain the definition of the word "valuable", one would go to the dictionary. There, you would find phrases such as, "highly useful for a specific purpose, having admirable or esteemed qualities or characteristics." You could then walk out to the soccer field at Granite City North and watch a live demonstration of those phrases. On that field, you could watch Steve Trittschuh play soccer. Then you would truly understand the meaning of the word "valuable".

As a soccer player, "Eaver" (Steve) has earned more recognition and honors than any other player in the history of our school.

- 4 Varsity letters
- 4 years as a regular
- 3 years Most Valuable Player (selected by his teammates)
- 3 years All-Area Team (selected by Belleville News Democrat)
- 2 years All-Sectional Team (selected by area coaches)
- 2 years Illinois All-State (selected by IHSSCA coaches)
- 1 year as Captain of North (selected by his teammates)
- 1 year All-American (selected by Parade Magazine)

"Eaver" appreciates the honors he has received, but is quick to point out that "I have played with some great players at North who deserve a lot of credit toward any honors bestowed on me."

Steve is a credit to his family, North High School, and to our soccer program. Coach Ames and I have enjoyed our association with this fine young man, and we join the entire faculty and student body in wishing him continued success in the future.

Coach Kehoe

val-u-a-ble adj. 1. Highly useful for a specific purpose. 2. Having admirable or esteemed qualities or characteristics. n. 1. "Eaver".

## '80-POLLS CALL CARTER-REAGAN ELECTION TOO CLOSE TO CALL

The Granite Cith High School NORTH Band contributes a great deal of North Steeler spirit.

The band performs at activities such as football games, pep rallies, home wrestling meets, home basketball games, and the All City Band Festival.

From everyone at North we would like to thank Mr. Todoroff and the band for their time and for doing an outstanding job. As the book goes to press, we have just received word that Mr. Robert D. Todoroff is retiring this year from teaching! Mr. Todoroff is a truly irreplaceable teacher. We can't begin to thank him enough for the many innovations he has made in the music department over the years. When band director at Coolidge Junior High, he established a Latin Band and took it on tour in Mexico. Here at North, he established Flags and Rifles, Pom-pom, and the Field Conductor system. Well done, Mr. Todoroff!

## MODERN MUSIC MASTERS

Modern Music Masters (Chapter 1300) is an international honor society for high school students participating in band or vocal music. It is a lifetime membership. Students must maintain a "B" grade in music, a "C" average over-all, and pass a test about the organization. Students are eligible at the end of their sophomore year.

1st row (L to R) Elizabeth Trimmer, Wendy Mann, Kim Sugg, Rene Niemeyer, Lora Churchwell, Kara Winter 2nd row (L to R) Susan Beasley, Allison Ashmore, Rod Unger, Karla Stawar, Greg Mason, Greg Schaefer, Shelly McTernan 3rd row (L to R) Kathy Kozar, Karen McCracken, Sondra Brown, Gail Gantt, Deanna Beatty, Dawn Mertz, Jennifer Gaumer, Denise Cooper, Lori Richardson, Angela Ashcraft, Anthea Hallett 4th row L to R: Belinda Conley, Terri Counts, Trisha Atkinson, Tammy Taylor, Julie Hay, Alan Forbes, Kim Fountain, Kathy Horn, Lori Cook, Cindy Humphreys, Tracey Doneff, Brad Hart

## 1982-83 YEARBOOK STAFF

Row 1 (L to R): Kim Hale, Lori Halbert, Tracy Buchanan, Kari Palmer, Janice Hill, Lauri Machino, Chris DeRuntz, Row 2 (L to R): Mr. Johnson, Michelle Gann, Tammy Meyer, Teddy Gibson, Marc Allen, Brad Wofford, Keith Cookley, Michelle Sikora

As the last Editor-in-Chief of the INGOT Yearbook, I feel very privileged to address the student body. This year's book will be a memorable one for all of us. After finding out about our school closing we tried to make this the best yearbook, ever. I would like to thank Chris DeRuntz, Assistant Editor, and the yearbook staff on a job well done and wish them the best of luck next year. I would like to give special thanks to Mr. Robert Johnson for his decade of service in making the INGOT, what it has been, Though North may be closing the Steeler spirit of a past decade will live forever!

Kari Palmer  
Editor-in-Chief

1983-PRESIDENT REAGAN ADMITS BUDGET CANNOT BE BALANCED BY END OF 1984 — HE PREDICTS AN ECONOMIC UPTURN IN COMING MONTHS.

Mr. Johnson and the editors of the 1958-1959 yearbook staff, — his first, 25 years ago. Judy Childers, Editor-in-Chief.

thing to be proud of. *And We Are Proud!*

Closing North is not simply closing a building; it is closing a fine educational institution. We are fortunate in having a fine principal and staff, as well as a fine student body. Closing North is closing a way of life, — a good one. We at North have won more than our fair share of games, awards, scholarships, friends, — and memories. And we have lost, too. And now we have lost our school. But we will always remember how it was at North, won't we?

This, then, will be the last issue of the North *Ingot* yearbook. (A collector's item.) As yearbook advisor, I named the book *The Ingot*, because an ingot is a casting of steel. The yearbook was an annual casting of the North experience. I've had some fine staffs over the years, and we've had

some fine yearbooks, but I believe this year's staff has made the greatest effort yet, to produce a memorable yearbook, and we hope our *final* book will be the best.

North — 1983

## NORTH CLOSES

As this book goes to press, after months of agonizing, we have received word of the official decision by the Board of Education to close North High School at the end of this year, as a cost cutting measure.

It hasn't exactly been "Camelot" at North. We've had leaking roofs, flooded floors, falling ceilings, cracked walls, a parking lot which was often a lake, and chronic problems with the heating and air conditioning systems, but those are physical problems. We've had *Spirit* and *Pride* at North, and we've had *Excellence*. Above all, we've had a fine educational environment at our school. Students and staff have gotten to know, to like and respect each other. The school was small enough for that. We have been loyal and considerate to each other, also. Everyone concerned has tried to make being at North some-

# "TWENTY-FIVE YEARS OF TRANSITION — TWENTY-FIVE YEARS OF CHANGE"

## SOME NOTES FROM THE ADVISOR:

The school year 1982-83 is a benchmark in many ways for me as yearbook advisor for the North Ingot staff. The year marks my twenty-fifth year as an advisor on Granite City High yearbooks. The staff and I produced fifteen of them at South when it was Granite City Senior High School, and this will be my tenth book at North. I had the pleasure of naming North's book, *The Ingot*, a title derived from the fact that an ingot is a casting of steel, and we are the Granite City North "Steelers". *Our book represents a casting of the North experience of the students and staff for the year 1982-83.*

The students and staff, the parents of our students, and I think the community at-large, are proud of the accomplishments of North High School in the decade of its existence. Everyone concerned has wanted to make North a fine school with high standards, not only academically, but in every area in which it operates. Although there have been many obstacles along the way, some of us believe those high aspirations have often been met. I remember the efforts of members of the yearbook staff to design a school seal shortly after North opened, one which would have enduring significance for a school we hoped would exemplify excellence. The centerpiece of their effort was a perpetual flame of learning. Nothing more need be said.

As our school district, like so many other public institutions, has faced the future pressured by the same fiscal problems they all face in our present economy—those of sharply reduced state and federal funds for support of the schools, as well as reduced local tax funds due to declining business activity, increased unemployment and a reduced population—rumors have been rife that Granite North may be closed and the two high schools merged. We can only hope that this move will not be necessary, and that the future of Granite High North will be long and bright.

In searching for a theme concept around which to orient this year's book, we finally settled on "Twenty-five Years of Transition — Twenty-five Years of Change," because of my quarter century association with the schools of Granite City, years of teaching history and government. Why not remind the reader of the tremendous events of the last twenty-five years which are unprecedant in human history? Twenty-five years is a long time, so how best to do this? We decided to display the headline events of the last quarter century, and to reminisce about many of the changes in customs and traditions since that time. Since I have reached the half century mark myself this year, and can recall the events of the 1930's and of World War II, this was relatively easy to do. We all see everything from a different point of view. Many high school students think that everything of importance began with their birth, but a half century of living gives you enough perspective to see that this is not true.

R.L. Johnson  
Ingot Advisor

---

## BUT WHAT CAN BE MORE EXCITING AND MEMORABLE THAN THE HIGH SCHOOL YEARS?

---

Life is fleeting, at best — something not immediately apparent to us, so we thought it useful to list some of the famous personalities of yesteryear that over the last twenty-five years have become a part of history. Hence the obituary sections. How could all of these famous people that made their mark in one way or another, possibly have passed from the scene? But they have. Now they are one with eternity.

BAND — 1983

# "YEARS OF TRANSITION — YEARS OF CHANGE" 1958-1983

In looking back over the past 25 years, a person can draw certain conclusions, which admittedly are subjective at best, and colored by the point of view of the person analyzing the events. Never-the-less, some things seem clear. Seldom, if ever, has our society gone through such significant change in such a short period of time. Our society has been impacted by major cataclysms like war, inflation, or depression before, but most of the nation's hallowed institutions and the customs of society have remained essentially intact, though temporarily disrupted.

The events of the past twenty-five years, however, have made it seem that we Americans find ourselves on a perpetual roller-coaster, trying desperately to hold on to our individual stability, while major change after major change in political leadership, political programs, economic structure, military involvement, social reform within society, and the impact of events in foreign affairs erratically change our course and direction. The roller-coaster metaphor seems particularly apt, as like those attempting to remain seated on such a device, most ordinary people have seemed helpless not only in controlling the events which affect their everyday lives, but they have despaired of influencing them, also. Not only have the events been cataclysmic in degree, but they seemingly come with devastating suddenness through modern communications which give us an instantaneous update on major disasters occurring not only in our home town, state, or nation, but also around the world.

Admittedly most major news events don't seem to affect us personally, as we go about our "normal" lives, but in the end, if we have knowledge of them, and if the government or society reacts to them, as they do, then they do affect us all. No wonder Americans have an increased fondness for nostalgic artifacts of the past, when things seemed more stable!

Two major events of the last quarter century seem to stand out in particular:

On October 4, 1957, the Soviet Union, a nation which most Westerners had dismissed as industrially and scientifically backward, shot Sputnik I, the first earth satellite into outer space, and placed it in orbit around the Earth. Armed with a nuclear warhead, the rocket which launched Sputnik I could strike New York, Chicago, or Detroit, eighteen minutes after launch in Moscow. Suddenly, Americans were forced to re-examine their basic assumptions about not only the Soviet Union, but about modern technology, our personal security, U.S. military preparedness, technological proficiency, the adequacy of our educational institutions, and the assumption of the natural and inevitable American superiority in world leadership, as the world had been ordered very much as we had desired since our overwhelming victory in WW II. We also took another look at the commonplace assumption that Americans were just naturally superior to others when it came to machines and technology. It made us realize just what a small world we inhabit, indeed.

American reaction to that event was immediate and profound, and as a matter-of-fact, America is still reacting to that event. Witness President Reagan's proposed increase in military spending over the next five years of \$1.675 Trillion dollars. The Department of Defense says that will be the equivalent of \$20,000 for each taxpayer in the U.S., and can be further subdivided so that it will apportion out at \$38 million dollars per hour. his budget, the president says, will not only give us military parity with the Soviet Union in both atomic and conventional forces, but will give us the superior power of deterrence, as well.

The other event seems more personal, even though most of us didn't know the man at all. We just felt that we did. If millions of Americans have identified with the leadership of any man in recent history, that man was John F. Kennedy. He seemed to symbolize, even personify to many of us, the highest and best hopes for the future of the American system — The "American Dream." When he was struck down by the assassin's bullet that day in November, 1963, most Americans felt the acute sense of loss that we would have felt if the bullets had struck one of our family. No doubt television broadcasting the scene that day helped to make it so. Television, in itself, has profoundly affected us, too, because nothing can project the immediacy of world events, next to being there, of course, like television.

After President Kennedy's assassination, nothing seemed certain. Political assassination followed political assassination, administrations changed with great rapidity, the crime rate skyrocketed, violent crime and mass murder became the daily subject matter of newspapers and television. Murderers, even though apprehended and convicted, did not pay with their lives. National and international terrorism to achieve whatever "goals" the terrorists seek, have held hundreds in thrall. Worst of all, the very glare of publicity seems to encourage many criminals to commission their crimes, in order to bask in the limelight, the effect now becoming partial cause.

This is to say nothing about the changes in the role of women in our society, with their impact on the family and the economy, the effect of racial integration bringing the blacks into the mainstream of our society, the effect of various wars in which we have been directly or indirectly involved, multinational corporate operation and international technological development and interdependence, which has caused the loss of domestic and foreign markets in what was the mainstay of the American economy, basic steel and the auto industry, to the Japanese and Germans, — mortal enemies only slightly over a quarter century ago — whose economies we helped to rebuild with the most modern technology available.

It says nothing of the space race, of unprecedented inflation, interest rates, reductions in government spending on social programs, with consequent record unemployment and economic dislocation, nor the many other problems our society is heir to. We should be especially concerned with the decline in public services which serve the vast majority of our population. If taxation is the price we pay to have a civilized society, a great many are no longer willing to pay the price. The proposition 13 mentality seems to have spread throughout the land.

All this used to be the stuff of adult conversation which most children were not aware of, hence they were not affected by it. But with the advent of modern electronics, the media saturates our existence, daily, making these events as appallingly apparent to the child as to the adult. They are spared nothing, in spite of R rating systems and cable television keys. They, as we, must develop the emotional maturity and the presence of mind to examine the headlining events that are hurled at us, and digest them with a perspective which will allow them to fit into our everyday lives. If adults can look to the future with this kind of mature judgement, we can face the future with more confidence, but it is asking an awful lot of children of school age, who soon will be running this society, themselves.

THE "FIGHTING STEELERS"  
NORTH'S GRIDIRON HEROES!

## THE EVENTS OF 1958 WHATEVER HAPPENED TO:

1. The feeling of stability and security most Americans seemed to have during Dwight D. Eisenhower's administration?
2. The atomic submarine, *Nautilus*, which made the first undersea voyage through the fabled "northwest passage," passing under the northern polar ice cap, sailing under 50 ft. thick ice for 96 hours before surfacing?
3. "Sunrise at Campobello," Dore Shary's play about Franklin D. Roosevelt and his struggle with polio, of infantile paralysis?
4. Come to think of it, what happened to infantile paralysis, the dread disease of children since Dr. Jonas Salk's discovery of a polio vaccine?
5. Pianist Van Cliburn, who at 23 won the Tchaikovsky International Piano Festival in Moscow, playing Rachmaninoff's Third piano Concerto, in 1958?
6. American Athlete Glenn Davis, who set a world record in track at Budapest, Hungary in 400 meter hurdles of 49.2 seconds?
7. The music of "South Pacific" which made its European debut, or Rodgers and Hammerstein's "Carousel" and "Flower Drum Song" which opened on Broadway this year?
8. Robert Frost, America's pre-eminent poet of this period?

9. Duke Ellington, American jazz pioneer composer and band leader, whose orchestra opened at the annual Newport, R.I. Jazz Festival in 1958?
10. Mike Todd, producer of "Around the World in 80 Days", and husband of Elizabeth Taylor? He was killed in a private plane crash in this year. Liz went on to marry Richard Burton, *twice*.
11. Middleweight Champion Sugar Ray Robinson, the first champion to regain his crown five times? He will be the model for the inspiring ring style of our contemporary ring champ, Sugar Ray Leonard.
12. Nathan Leopold, thrill slayer of Bobby Franks, who in this year was granted a parole from Joliet, Illinois State Prison, after he was sentenced without possibility of parole?
13. Abstraction Painting, the most voguish art of the period?
14. The great recession of 1958 — unemployment rate of 7.7%? (The 1982-83 rate approaches 10%.)
15. Explorer I, the first American earth satellite, launched from Cape Canaveral, Florida? (Later Cape Kennedy, Now Cape Canaveral, once again) It was bullet shaped, 80 inches long and 6 inches in diameter. Weight 30.8 lbs. The first American satellite to orbit weighed  $\frac{3}{4}$  lb., was 6 inches in diameter. It was the Vanguard 1, in 1958.

## THE SOCCER STEELERS DO IT AGAIN!

There's plenty of action watching the Soccer Steelers.  
Coach Kehoe's men are aggressive and full of fight.  
As these photos show, our guys are in there to win!

You can see they have some enthusiastic support, too.

## THE EVENTS OF 1959 WHATEVER HAPPENED TO:

1. John Foster Dulles and George C. Marshall, both former Secretaries of State? Both of these men died in 1959.
2. Vice-president Richard Nixon, who went to Moscow to face down Soviet Premier Khrushchev in his famous "Kitchen Debate?"
3. Soviet Premier Khrushchev, who came to the U.S. to visit when Cold War tensions were at their height, but was refused entrance to Disneyland?
4. Yogi Berra, catcher for the New York Yankees who finished participating in his tenth world series this year, tying records set by Babe Ruth and Joe DiMaggio?
5. The Tornado that struck St. Louis in February, 1959, killing 22 people, injuring 350, leaving 5000 homeless? President Eisenhower declared St. Louis a disaster area.
6. The original 7 astronauts, chosen for the ranks of military test pilots, for a training program to ride a project Mercury space capsule into earth circling orbit in 1961? Of the seven, only one, Alan Sheppard was selected to make the flight, which was sub-orbital.
8. The national debt, after a bill signed by President Eisenhower raised the permanent limit to \$285 Billion? (1982 national debt — over *One Trillion*)
9. Our nuclear superiority? In 1959, at the NATO Council in Paris, the U.S. Secretary of State announced we have nuclear superiority over the USSR. In 1982, President Reagan announced that the Soviet Union led in nuclear capability.

If you know the answers to the above questions, you're smart enough to graduate. We'll put you at the head of the class, and you will at last know the thrill of last year's lucky grads when they received their diploma! "See you next year." Remember the year that was — 1982-83 — The year of "Pac Man," and the St. Louis World Series victory.
